

## **GNHTC MISSION STATEMENT**

The HTC is an organization that supports residents of privately-owned government assisted buildings. The Coalition's goal is the preservation of safe, decent and affordable housing. The Coalition works to prevent involuntary displacement, ensure a controlling voice for residents in the future of their building, and to explore tenant management and/or ownership.

The HTC:

1. Assist tenants in forming and maintaining tenant organizations;
2. Provides leadership training and technical assistance;
3. Advocates for tenants;
4. Monitors and affects changes in housing policy at the local, state and federal levels;
5. Informs and educates tenants and the public about their legal rights; and
6. Builds on our collective power-base by networking and transferring skills

Members and supporters are working together to preserve affordable housing.
